Orbit Digital - RFP Response: Partnership Submission

Submission date: 2026-01-09. Contact: hello@orbitdigital.example

1. Technical Capability

Orbit Digital provides a modular platform built on established open-source components.

Integration options include REST and webhook delivery, scoped during onboarding.

Business continuity arrangements are maintained in line with our internal policy.

2. Our Approach

We work in two-week iterations with continuous stakeholder engagement throughout delivery.

Detailed milestones, staffing profiles and dependencies will be agreed after contract award.

3. Experience and References

Orbit Digital has supported 23 clients over 11 years with an average tenure of six years.

Support is 24x7 with a 30-minute response for critical incidents and a 99.95% uptime SLA.

A dedicated customer success manager is assigned to every engagement at no extra cost.

Six referenceable clients are listed in Appendix C, four in the same sector as this RFP.

Client satisfaction averaged 4.8 out of 5 across the last three annual surveys.

4. Security

Orbit Digital follows documented secure development practices and reviews access quarterly.

Formal certification status and encryption standards are available on request.

5. Commercial

A commercial proposal will be issued separately once requirements are finalised.
